Reasons For Allowance

Claims 1 – 35 are allowable.

The following is an examiner's statement of reasons for allowance: in combination with other limitations of the claims the prior arts made of record fail to suggest an arithmetic decoder (an article of manufacture) and method that comprise a decoding engine including a range register to assign a value to range for a LPS wherein a value is based on a probability estimate, a value stored in the range register and a context identifier if the context identifier is not equal to an index and the value is not based on the value stored in range register if the context identifier is equal to the index and the decoding engine further to determine a value of a binary event based on the value of the range for the LPS and bits from an information sequence. Also, in combination with other limitations of the claims, the prior arts made of record fail to suggest an arithmetic encoder that comprises a coding engine coupled to a probability estimator to generate zero or more bits of an information sequence in response to each event and its corresponding probability estimate, wherein the coding engine codes an event to signal the end of arithmetically encoded data in the information sequence using a constant for a subrange interval that is independent of a value of the range register prior to coding the end of slice signal. Moreover, in combination with other limitations of the claims the prior arts made of record fail to suggest an apparatus (an article of manufacture) for encoding and method comprising a means for generating a bitstream using an encoded data including means for wherein the coding engine codes an event to signal an end of

arithmetically encoded data in the bitstream using a constant for a subrange interval that is independent of a value of a range register prior to coding the end of slice signal.

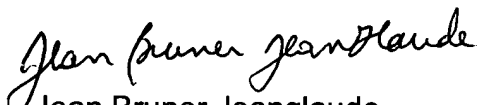

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
